

## **Statement from Encore Boston Harbor Regarding COVID-19 Precautionary Measures**

March 3, 2020:

Safeguarding the health of our guests and employees is of the highest importance. Although as of this date there is just one reported case of COVID-19 in the greater Boston area, we are in close contact with the Massachusetts Department of Health, as it is monitoring the situation along with the CDC and the Boston Public Health Commission. We will implement any health directive or protocols these agencies issue.

As a precaution, we have proactively instituted the following measures:

- Provided hand sanitizers in public areas and back-of-house for guests and team members.
- Underscored the importance of proper hand washing and remaining vigilant about personal hygiene, following CDC recommendations.
- Increased cleaning protocols that include more frequent sanitizing of touch points such as door handles, elevator buttons, handrails.
- Encouraged a stay-at-home policy for any employee who feels unwell.
